

## Tell me about yourself

1. What is your name and what do you prefer to be called? What are your preferred pronouns?
2. Tell me something interesting or unique about yourself.
3. Tell me about the last math class you took. How did you feel about the class? What did you like most about it? What did you find frustrating?
4. Why are you taking this class? Please tell me as much as you can: What do you hope to get out of this class? Do you have any specific goals? If it is a requirement for something else, tell me about that something else and how you imagine this class helping with it?
5. My planned office hour times are:
  - Mon: 2:30-3:30 pm
  - Wed: 4:30-5:30 pm
  - Fri: 9:30-10:30 am

Do any of these times work for you. If not, what times would work for you?

6. What do you think will be the most enjoyable part of this course?
7. What do you think will be the most challenging?
8. Is there anything else about you that you want to share?
